Informed consent – Nuvaxovid (Novavax)

Version 1.2, as at: 04/03/2022

Following vaccination against COVID-19, reactions to the vaccine often occur which usually disappear on their own within a few days. Pressure sensitivity and pain may occur very often at the injection site; reddening or swelling may occur often. Moreover, fatigue or general discomfort, headache, muscle or joint aches, nausea or vomiting may occur very often; fever or shivering may occur often. Very often means that more than 1 in 10 vaccinated persons are affected; often means that up to 1 in 10 vaccinated persons is affected. Severe allergic reactions may occur. Physical rest is recommended for three days after vaccination, and sports should be abstained from for one week.

For details, please refer to the information leaflet provided electronically. You may also request a hard copy of the information leaflet. Should you have any further questions, please get in touch with your doctor. In order to access the COVID-19 vaccine Nuvaxovid (Novavax) information leaflet, please scan the QR code (<https://www.basg.gv.at/konsumentinnen/wissenswertes-ueber-arzneimittel/covid-19-impfstoffe>).

With my signature I confirm:

- that I have read and understood the leaflet regarding the vaccine described therein, or that I was otherwise provided with sufficient information about the same. I have been able to obtain information about potential adverse effects and possible arguments why I should not be vaccinated.
- that I am appropriately aware of the benefits and risks of the vaccination and accordingly do not require any further personal consultation,
- that I consent to being vaccinated free of charge, and
- that I am aware that my personal data are going to be processed in the vaccination register in accordance with the Gesundheitstelematikgesetz 2012 (see <https://www.elga.gv.at/datenschutzerklaerung>).

Nuvaxovid has been approved for persons aged 18 and above for the 1st and 2nd vaccinations as homologous vaccination regimen (= the same vaccine for both vaccinations). Other applications have not been approved yet.

Should you have any further questions, please get in touch with your doctor before signing this form.

For underage persons (children under the age of 14) or persons under disability, consent must be obtained from the legal representative (parents, legal guardians or authorised agents) of the person to be vaccinated. Adolescents (mature underage persons who have completed the age of 14) must give consent themselves if they are capable of making decisions.

Important information: For your own safety, you should stay near the vaccinating doctor for some 20 minutes, on the off chance of any reactions occurring (nausea, collapse, allergic reactions etc.). If you suspect to experience any adverse reactions, please contact your doctor or pharmacist. They are obliged to report any suspected adverse reactions. However, you or members of your family may report adverse reactions as well. More information is available online at <https://www.basg.gv.at/marktbeobachtung/meldewesen/nebenwirkungen>; you can also call 0800 555 621.
